Versions in
steel 1.0038,
electrically galvanized
stainless steel 1.4301

i The ESKATE wide-band beaded clamping ring is a newly-developed clamping ring with a width of 45mm for connecting long and spiral ducts with a beaded rim measuring 6mm in height. Moreover, this clamping ring is ideal for longitudinally-welded pipes. The single-part clamping ring has a centrally inserted bead and is assembled with two screw connections.

Note: The gasket can remain in the clamping ring during assembly and does not need to be removed.

i Very short lead times due to all year round availability from stock. Custom and non-standard factory sizes available on request

Minimum order value: Net goods value of 40.00 euros. The prices do not include VAT, packaging and forwarding. All dimensions in mm. All weights in kg. Subject to errors and alterations.

We would be pleased to advise you on your individual terms and designs. Just give us a call.
